

Counting Fruits and Vegetables

How much is a cup?

The amount of fruits and vegetables you should eat depends on your age, sex, and level of physical activity. Most adults need 2 – 3 cups of vegetables and 1½ – 2 cups of fruit each day. More specific recommendations can be found at www.choosemyplate.gov

| FRUITS | Amount that counts as 1 cup of fruit |
|---|--|
| Apple | ½ large (3.25" diameter) 1 small (2.5" diameter) 1 cup sliced, chopped, raw or cooked |

| Tomato/mixed veg. juice | 1 cup |
| Summer squash/zucchini | 1 cup cooked, sliced, or diced |

Why cups instead of servings and portions? A *serving* is the amount listed on the Nutrition Facts label on a purchased product. A *portion* is how much food you choose to eat at one time. *Portions and servings* vary greatly from one product, or person, to another. That is why eating recommendations are in actual weights and amounts of specific foods. (Ex. Cups, ounce equivalents, tablespoons, teaspoons, etc.)
