

Cow/Calf Risk Management

February 23, 2022

5:30pm

K-State Research and Extension recognizes the uncertainty that farmers and ranchers are experiencing due to fluctuating cattle and input prices. More than ever, risk management of the operation is critical to long-term sustainability.

This hands-on evening workshop will teach principles of determining cost of production for a cow/calf operation, strategies for cattle marketing, and insurance products for price risk management. Participants will work with a case farm to apply these topics to a real-world cattle operation. The goal is for participants to acquire risk management skills they can apply directly to their own operations.

Wildcat Extension District Locations:

Altamont Office (524 Huston St.)

Girard Office (120 E. Buffalo)

Fredonia Office (615 Madison)

Independence Office (410 Peter Pan Rd.)
